## Strouts, Bohrsen and Dean to Arrange for Agricultural Course

### Appointments Made for New Year; Courses to be for Young Men Between 16 and 30 Years of Age; Delegates Selected for R.M. Convention

The first regular meeting of the Council of the R.M. of Rosedale, No. 283, for the year 1940, was held in the Council Chambers at Hanley on Thursday, Jan. 4, at 1 p.m.

Present: Reeve Gordon P. Strouts and Councillors Alex Lafave, Ed. Bohrsen, Glen Rowley, Wm. Dean, Otto Anderson and A. R. Schwanbeck.

The Oath of Office was duly taken by Reeve Strouts and newly elected councillors Bohrsen, Dean and Schwanbeck.

Moved by Councillor Rowley, that direct relief issues for month of December amounting to \$294.50 be hereby approved and passed for payment. Cd.

Moved by Councillor Lafave, that members of the council be paid indemnity for attending meetings during the year 1940, as follows: Reeve, \$4.00 per meeting, plus 10 cents per mile travelled; Councillors, \$4.00 per meeting plus 10 cents per mile travelled. Cd.

Moved by Councillor Bohrsen, that members of council be paid for road supervision during the year 1940 at the rate of \$3.00 per day plus eight cents per mile for each mile necessarily travelled. Cd.

Moved by Councillor Anderson, that members of council be paid at the rate of \$3.00 per day plus eight cents per mile for each mile necessarily travelled for time spent in connection with relief administration, and that members of council be paid \$3.00 per meeting, for any meeting called for the purpose of dealing with relief matters, plus eight cents per mile for each mile necessarily travelled. Cd.

Moved by Councillor Schwanbeck that the Reeve be paid for office supervision, during the year 1940, at the rate of \$4.00 per day plus ten cents per mile travelled. The minimum time for any one trip to office to be two hours. Total payment for year not to exceed the sum of \$75.00. Cd.

Moved by Glen Rowley, that Ed. Bohrsen and A. R. Schwanbeck be hereby appointed official delegates to attend the Saskatchewan Association of Rural Municipalities to be held at Saskatoon on March 6, 7 and 8, 1940. Alternative delegates Reeve G. P. Strouts and W. H. Dean. Visiting delegate G. P. Strouts. Cd.

Moved by Councillor Dean, that Ed. Bohrsen be hereby appointed Deputy Reeve for the year 1940. Cd.

Moved by Councillor Lafave, that W. H. Briggs of Saskatoon be hereby appointed auditor for the year 1940 at a salary of \$175.00. Cd.

Moved by Councillor Anderson that Dr. E. H. Lee of Hanley be paid a grant of \$1,000 for the year 1940, payable monthly, said grant to cover Medical Health Officer's fees to which office said Dr. Lee is hereby appointed, and all services to indigent residents of the municipality, and that Dr. Lee be allowed the use of the office he now occupies in the Town Hall free of charge together with light, heat and telephone rental. Cd.

Moved by W. H. Dean that we authorize a grant to H. G. Budd of \$25.00 for upkeep of rest room during year 1940. Cd.

Moved by Otto Anderson, that Reeve Strouts and W. H. Dean be hereby appointed a committee to attend to all joint Town Hall affairs and to make recommendations in regard to the management of said Town Hall during year 1940. Cd.

Moved by W. H. Dean, that Reeve and Secretary-Treasurer be hereby appointed a committee to deal with admission of indigent patients to hospital. Cd.

Moved by Alex Lafave, that Reeve and Glen Rowley be hereby appointed an assessment committee to check over the assessment roll for the year 1940 with the assessor at its completion. Cd.

Moved by Otto Anderson, that we re-engage J. E. McGuire as secretary-treasurer and assessor of the R.M. of Rosedale at a salary of \$1,200 per annum. Cd.

Moved by W. H. Dean, that we re-engage A. E. Bannay as assistant secretary-treasurer of the R.M. of Rosedale at a salary of \$40 per month. Cd.

Moved by Otto Anderson, that J. E. McGuire, the secretary-treasurer of the R.M. of Rosedale, No. 283, (hereinafter called the "corporation") be and he is hereby authorized for and on behalf of the corporation, to negotiate with, deposit with, or transfer to the Royal Bank of Canada (but for the credit of the corporation's account only) all or any cheques and other orders for the payment of money and for the said purpose to endorse the same or any of them on behalf of the corporation, either in writing or by rubber stamp. Cd.

Moved by W. H. Dean that application be made to the Extension Department of the University of Saskatchewan, Saskatoon for a two weeks agricultural short course, open to young men between the ages of 16 and 30 years, to be held at Hanley, preferably, the latter two weeks of March, 1940. Cd.

Moved by Glen Rowley, that the Reeve, Ed. Bohrsen and Wm. Dean be hereby appointed a committee to make all necessary arrangements for the two weeks agricultural short course should the Extension Department agree to give same. Cd.

Moved by Otto Anderson, that we make application to the Provincial Department of Agriculture for a seed cleaning outfit. Cd.

Moved by A. R. Schwanbeck, that the Reeve, Ed. Bohrsen and Wm. Dean be hereby appointed a committee to look after seed cleaner should same be granted by the Department, said committee to have power to purchase necessary equipment to operate same. Cd.

Moved by A. R. Schwanbeck, that regular meetings of council during the year 1940 be held on the first Tuesday of each calendar month at 1 o'clock in the afternoon. Cd.

Moved by W. H. Dean, that the following accounts are hereby approved and passed for payment:

Hawarden Pioneer, Printing, \$22.  
Dept. of Telephones, long distance calls, \$3.22.  
Verney Pharmacy, Stationery and Drugs, \$3.76.  
Monarch Lumber Co., Bridge material, \$247.54.  
R. A. Moore, G. Carr account, \$2.75.

Readwork  
W. R. Smith, \$6.30.  
T. Sira, \$4.50.  
D. J. McPhee, \$4.50.  
W. E. Hunter, \$20.25.  
C. Ballard, \$2.25.  
H. M. Bernick, \$18.88.  
G. P. Strouts, supervision, \$4.20.

Installation on Private Tax Sale Certificates  
W. T. McCauley, \$38.65.  
L. H. Tietjen, \$118.15.  
D. F. McRae, \$110.40.  
Debiture Co. of Canada, \$39.29.  
Wm. F. Eyre, \$62.28.  
James Morrison, \$287.06.  
Northern Brokers Ltd., \$48.20.

Joint Town Hall Accounts  
J. L. Gessell and Son, Fire Insurance premium, \$14.50.  
T. Remmen and Sons, Fuel, \$18.20.  
Sask. Power Comm., Light, \$17.85.  
Geo. Gregg, Postage, \$2.00.  
R. Nixon, Draying Coal, \$1.20.  
Town of Hanley, Carstaker's salary, \$900. Cd.

**RAINBOW SCHOOL REPORT**  
The following is the report of the Rainbow school for December:

Grade 8: Shirley Bellows 88, Beverly Henry 88, Alvin Bellows 75.  
Grade 7: Pearl DeLong 88, Jean Henry 81, Mary Clark 80, George Bellows 67.  
Grade 5: Leslie Bellows 84, Billie Henry 82.  
Grade 4: Ronald McKenzie 81, John Clark 75.  
Grade 3: Charles Bellows 88.  
Grade 2: Milton O'Dell 75, Donald Bellows 78, A. W. McKenzie, teacher.

## CANADA'S FIRST WAR LOAN

OTTAWA, Jan. 8, 1940.—In preparation for Canada's first war loan effort of the new world war, a National War Loan Committee and a National Subscription Committee are in process of forming across Canada, and will be organized in time for the initial effort on the economic war front.

The National War Loan Committee, under the chairmanship of the Hon. J. L. Ralston, K.C., M.P., Minister of Finance, will be composed of five former Ministers of Finance, Canada's nine Provincial Treasurers, and more than 300 representative citizens, resident from coast to coast. The five former Ministers of Finance are: the Rt. Hon. Sir Thomas White, the Hon. Sir Henry Drayton, the Rt. Hon. R. B. Bennett, the Hon. E. N. Rhodes and the Hon. Chas. A. Dunning. The nine Provincial Treasurers are: Hon. Thane A. Campbell, P.E.I.; Hon. Angus L. Macdonald, Nova Scotia; Hon. C. T. Richard, New Brunswick; Hon. J. A. Mathewson, Quebec; Hon. Mitchell F. Hepburn, Ontario; Hon. Stuart S. Carson, Manitoba; Hon. W. J. Patterson, Saskatchewan; Hon. Solon E. Low, Alberta; and Hon. John Hart, British Columbia.

Mr. Dunning has also accepted the chairmanship of the National Subscription Committee, which will assist the National War Loan Committee, and will be concerned with the securing of larger subscriptions of a national character. It will be responsible for organizing the work of canvassing the larger institutions and corporations, in addition to stimulating the broader sale of the bonds to the public. This committee will have the active cooperation of investment dealers throughout Canada, a number of whom have already done considerable work in the preliminary organization.

The First War Loan will provide Canadians, as a whole, with their first opportunity to participate in Canada's war effort. To enable everyone to subscribe, it is indicated that bonds will have denominations as low as \$50 each for smaller subscriptions.

In announcing the acceptance by Mr. Dunning of the chairmanship of the National Subscription Committee, Mr. Ralston said, "Canada is indeed fortunate that Mr. Dunning has agreed to undertake this important task. His experience as Minister of Finance and also in connection with the Victory Loan campaigns during the last war make him the ideal man for the job."

## HANLEY LADIES' AID

The Ladies' Aid held their regular meeting at the home of Mrs. Nelson on Thursday afternoon with a very good attendance. All the new officers were in attendance with Mrs. Morrison in charge. It was decided to have a ten cent tea on Jan. 20. The committee were appointed in charge of the annual Happy Gang Concert to be staged some time in March.

The annual reports were read by the different convenors. The treasurer reporting that \$476 were the receipts for the year with \$227 of this turned over to the Church Board. Among the undertakings of the year were the Happy Gang Concert, booth at Sports day, annual fowl supper and concert, and bazaar and sale of home cooking. Each of these was a decided success.

## KENASTON LOSES SPORT BOOSTER

Mr and Mrs J. C. Henry, Dorothy and Orva were entertained at the home of Mr and Mrs Muri Heath on Sunday, Dec. 24. Mr Heath presented Mr Henry with a Westfield wrist watch and Mrs Henry with a Royal Albert tea set on behalf of the Curling Club. Mr J. C. Henry has been secretary-treasurer of the club since it was organized. When it comes to curling, baseball and hockey all agree that "Jim" was right there to help promote the cause. Mr and Mrs Henry and family left on Tuesday, Dec. 26, for Duck Lake where Mr Henry will be station agent.

## WIN JOHNSTON CUP

The following rinks from Haddworth came to Hanley on January 8 and took the Johnston Cup by 3 points: L. Stein, H. Edwards, C. Mutch, P. S. Clarke skip; J. Miller, R. E. McNeill, W. Buchanan, F. Pierlet skip.  
The rinks from Hanley were: A. Soderman, W. Sanderson, J. Bradley, A. Taylor skip; K. Bloom, C. Kippen, R. Knutson, H. Argue skip; E. Holland 2nd for A. Taylor in 2nd game.

## Town Council Makes 1940 Appointments

The first regular meeting of the Council of the Town of Hanley, for the year 1940, was held in the Council Chambers at Hanley, Sask., on Monday, Jan. 8, at 8 p.m.

Present: Councillors Oscar Hamre, F. O. Seebach, H. G. Budd, James Bird, James Siddall and Ole Nelson.

The meeting was called to order by Deputy Mayor Oscar Hamre, the Mayor being absent.

Moved by Ole Nelson, seconded by James Bird, that F. O. Seebach be hereby appointed deputy mayor of the Town of Hanley for the first quarter of the year 1940. Cd.

Moved by J. Siddall, seconded by H. G. Budd, that Dr. E. H. Lee, be hereby appointed Medical Health Officer of the Town of Hanley and the Hanley School District, No. 934, for the year 1940. That he be paid a fee of \$500 per annum and be allowed the use of the office he occupies in the Town Hall free of charge with light, fuel and telephone rental, the said fee to include all services rendered to indigent residents of the town, and that the Medical Health Officer be required to make a quarterly inspection of the Hanley School and make a report of such inspection to the School Board. Cd.

Moved by Ole Nelson, seconded by James Bird, that Geo. H. Jones be hereby appointed constable, janitor, sanitary and weed inspector and general utility man of the Town of Hanley for the year 1940 at a salary of \$940 payable monthly. Cd.

Moved by H. G. Budd, seconded by James Bird that W. H. Briggs be hereby appointed auditor of the Town of Hanley for the year 1940 at a salary of \$75, the books to be audited at least twice in the current year and the books of the Hanley School District No. 934 to be audited at the end of the year at no extra charge. Cd.

Moved by O. J. Hamre, seconded by H. G. Budd, that J. E. McGuire be hereby re-engaged as secretary-treasurer and assessor of the Town of Hanley at a salary of \$350 per annum, payable monthly. Cd.

Moved by Jas. Siddall, seconded by Ole Nelson, that A. E. Hannay be re-engaged as assistant to the Town Clerk for the year 1940 at a salary of \$144 per annum, payable monthly. Cd.

Moved by O. J. Hamre, seconded by J. Siddall, that Geo. Goodridge be hereby appointed poundkeeper of the Town of Hanley for the year 1940. Cd.

Moved by H. G. Budd, seconded by James Bird, that J. E. McGuire of Hanley (hereinafter called the "corporation") be and he is hereby authorized for and on behalf of the corporation to negotiate with, deposit with, or transfer to the Royal Bank of Canada (but for credit of the corporation's account only) all or any cheques and other orders for the payment of money, and for the said purpose to endorse the same or any of them on behalf of the corporation, either in writing or by rubber stamp. Cd.

Moved by O. J. Hamre, seconded by J. Siddall, that the following standing committees be hereby appointed for the year 1940.

Finance: Siddall, Seebach, Nelson.  
Fire and Light: Hamre, Bird and Seebach.  
Works: Seebach, Hamre and Budd.  
Town Hall and Rink: Budd Siddall and Nelson.  
Health and Relief: Nelson, Budd and Bird.  
Licenses: Bird, Hamre and Siddall. Cd.

Moved by Ole Nelson, seconded by James Bird, that we pay the Manufacturers Life Insurance Co. the balance due on rink debentures, being the sum of \$961.28. Cd.

Moved by O. J. Hamre, seconded by J. Siddall, that the following accounts due Hanley and Rosedale for hall rent be cancelled:

McLung, \$5.  
Old Phoenician, \$5.  
Conservative Club, \$5. Cd.

Moved by Ole Nelson, seconded by J. Siddall, that the following of council be held on the 8th Monday of each calendar month at 8 p.m. Cd.

## Hanley Mission Circle

The regular meeting of the Mission Circle was held on Monday evening at the home of Mrs. Morrison, with a good attendance. The annual report was filled out to be sent in. The study book was taken by Audrey Lawrence, the Scripture was read by Annie Taylor.

After the business meeting was over the girls spent the evening in handwork.

Lunch was then served by the hostess.

Moved by James Bird seconded by Ole Nelson, that the following accounts are hereby approved and passed for payment:

Rink Pump  
W. H. Dean, \$3.25.  
Willey and Siddall, \$2.00.  
R. Siddall, \$1.15.  
T. O. Hamre, \$1.73.  
J. A. Nystuen, \$4.97.  
R. H. Wagar, \$2.00.  
Verney Pharmacy, Office supplies, \$1.74.  
Sask. Power Com., Rink light, \$4.18; fire hall, 92c; street lights \$38.50.

R. Nixon, Draying water to rink, \$5.00.  
Monarch Lumber Co., Lumber and Coal for rink, \$16.43.  
G. Hamdorf, Road maint., \$2.00.  
W. R. Smith, Road maint., 90c.  
J. L. Gessell and Sons, Rink fire insurance, \$70.00.

Geo. Gregg, postage, \$5.00  
Transient Relief  
F. O. Seebach, 35c.  
Hero Cafe, 80c.  
C.N. Railway, \$1.00.  
Joint Town Hall Accounts  
Geo. Gregg, Postage, \$2.  
J. L. Gessell and Sons, Fire insurance premium, \$14.50.  
T. Remmen and Sons, Coal, \$18.20.  
Sask. Power Comm., Light, \$17.80.  
R. Nixon, Draying Fuel, \$1.30.  
F. O. Seebach, Sundry, \$2.97. Cd.

## L.O.L. Installs Officers For 1940

On December 6, at the L.O.L., No. 3088, the following officers were installed by Past Master Bro A. H. Butler:

**Complete The Job**

If it is possible to do so without interfering with this country's war activities, every effort should be made to complete the construction of the Trans-Canada highway without any further delay. The work has been in progress for a good many years now and it is high time that Halifax and Vancouver be connected by road on the Canadian side of the international boundary.

With the completion of the Big Bend section in British Columbia in the rough this year and with prospect of this 160 mile strip being surfaced in the spring the great all-Canadian transcontinental Highway will be traversable from the Atlantic to the Pacific in the summer of 1940 except for a 160-mile gap in Northern Ontario.

The uncompleted stretch of 160 miles in Northern Ontario lies between Schreiber and Port Mamainse, both on the north shore of Lake Superior, or further north on an alternative route a gap of 120 miles connecting Geraldton and Hearst, if bridged, would give a through route across the continent entirely within the boundaries of Canada. Both these gaps, however, lie in wilderness country with rock to be blasted and trees to be removed.

In view of the nature of the country north of Lake Superior, road construction is not an easy task and is comparatively expensive because of the amount of rock to be blasted, but the work is not by any means insurmountable, if supplies and labor are available. Until this work is done, however, east and west might as well be separated by 1,000 miles as by 160, insofar as road traffic is concerned.

**A Real Attraction**

That the announcement of the completion of an all-Canadian highway clear across the continent would draw heavy tourist traffic from the United States to this country there can be no doubt. The facility would prove attractive to a large number of holiday makers south of the international boundary under normal peace conditions and much more so while a major war is raging on the European continent.

Every year sees the migration of a large number of Americans to the playgrounds of Europe for vacation tours. It is obvious that they are people with money to spend for pleasure trips and time to spare for an extensive holiday, otherwise they would not be able to make holiday tours of Europe. Next year and perhaps for several years, if the war is prolonged, they will want to avoid war-torn Europe and will look elsewhere for a vacation tour.

Undoubtedly, Canada in 1940, will capture a good share of this extra holiday traffic, whether the Trans-Canada highway is completed or not, and particularly in this likely to be true in the east, but unless and until the north Ontario gap is completed, Western Canada will derive comparatively little benefit from it and will be deprived of additional Eastern Canadian traffic which undoubtedly would be offering were a through highway between east and west made available on Canadian soil.

The glamour of travel in another country to the north beckons large numbers of Americans with the means and the time to devote to it. The prospect of visiting and touring a neighboring country at war and yet do so in perfect safety will be an additional lure to many residents of the United States, and every effort should be made to capitalize on these natural desires. But the desired result cannot be achieved to anything like its maximum possibility until Canada can offer its guests a completed trans-continental thoroughfare, and one in good condition.

**A Further Incentive**

It was recently announced by the Department of Transport in Ottawa that "Despite the outbreak of war in Europe, tourist travel from the United States to Canada will not be hindered, nor will the present regulations be affected "which means that although this country is a belligerent, no new restrictions have been imposed or are likely to be imposed on the personal entry of tourists from the United States into Canada.

It was further pointed out that "Citizens of enemy countries will, naturally, be subject to restrictions but these will not affect the movement of tourists from friendly or neutral countries, who will continue to be welcomed as they have been in the past. In addition, special provision has been made to avoid inconvenience to tourists from the United States or abroad in the regulations of the Foreign Exchange Control Board."

In other words, American tourists will be able to take full advantage of the premium enjoyed by United States currency when expressed in Canadian dollars and this is an additional incentive to Americans to spend their holidays in this country.

While the steps taken by the government to prevent embarrassment to Canadian tourists are negative it requires positive action in the completion of the Trans-Canada highway if the country is to take full advantage of the opportunity offered by a continued war in Europe.

"Joe married a waitress."  
"Served him right!"  
"Yes, that's why he married her."

**Rather A Give-Away**

New German Decoration Suggests Great Risk For Sub Crews

A new decoration for German submarine officers and crews has been established, Berlin reports. The decoration will be awarded to men "who have sailed on two or more cruises" against the enemy and to those wounded on duty aboard a submarine.

When a man is decorated for sailing only twice in a submarine, it strongly suggests that the risk of death on submarine duty is now so great that those who return to port are honored like survivors of a forlorn hope. And when men wounded on submarine duty are set aside as a separate class, it also suggests that the chances are good of being wounded in less than two voyages.—Winnipeg Tribune.

Again the trained mechanic is coming into his own. Canadian industry needs him; and industry realizes the folly of not training more young men in the trades during the hard years.

Hertz, a German, discovered radio waves in 1887, 20 years after Maxwell, an Englishman, asserted they must exist.

**Keep Tab On Coal**

Canadian Coal And Coke Industry Will Be Subject To Government Licensing

The entire Canadian coal and coke industry will be subject to government licensing Dec. 1, it was announced by the wartime prices and trade board under the chairmanship of Hector B. McKinnon.

No company or individual will be permitted to operate without a license, with the order applying to manufacturers, importers, exporters, producers, jobbers, wholesalers and retailers of coal and coke, which includes all types of coal, including lignite, and all cokes, including those manufactured from petroleum.

The licensing plan will be administered by J. McE. Stewart, Canadian coal administrator, and his technical advisor, Frank G. Neate.

The license system has been adopted "to keep the government adequately informed of the situation surrounding the production, importation and distribution of coal; to assure an adequate distribution of coal; and to protect the public against any undue advance in price," the announcement said.

"While there is presently available in Canada more anthracite than at any time during the last decade, the licensing plan will make available to the coal administrator information from which it will be possible accurately to determine and to arrange for the maintenance of these supplies," the board stated.

"From Dec. 1, coal and coke dealers, importers and exporters and producers will all report to the administrator the amount of coal and coke on hand or in transit; the quantities sold or distributed each month; the prices charged, and any further information which the board may require."

Latest figures showed dominion coal production was stepped up in September, the output reaching 1,344,972 tons compared with 1,117,269 in September, 1938. Coal imports totalled 1,744,468 tons compared with 1,559,285, while exports amounted to 42,883 tons against 20,012.

Coal made available for consumption in Canada in September was estimated at 3,046,507 tons, compared with 2,646,542 last year.

**Effort Is Worth While**

Every Person Should Learn To Use Hands Skillfully

Many people have made a mess of life because they never learned to use their hands. The effort made to guard the famous Dianne quintuplets from that error has lessons which parents may well note.

These young ladies, now more than five years old, are being taught to drive nails into planks, to pile up blocks, and draw with crayons. Thus they are beginning very young to acquire a mastery of the world's most marvellous tool, the human hand.

People who can use their hands skillfully don't often go wrong. They find pleasure in the clever work they do with those hands, which enables them more easily to find ways to earn a living. Countless homes are wrecked because the wives are not competent in household arts, the beginning of which is skillful work with the hands. In times of war as at the present, men and women who are clever with their hands are in great demand, as mechanics, motor transport drivers, munition makers, etc.

**Royal Title For Apple**

That lovable old philosopher and angler Isaac Walton said that a friend of his once observed "Doubtless God could have made a better berry than the strawberry, but doubtless God never did." And so it may be said that doubtless God may have made a better tree fruit than the apple, but doubtless God never did, for the apple is rightfully entitled to be classed as the King of Fruits.

A Boston gunmaker once manufactured a gun with a 12-foot barrel. It weighed 50 pounds and had to be fired from a rest.

A full-sized window screen contains about one mile of wire.

**NERVES HELPED**

ONE of the best things a woman can take for nervousness is Dr. Pierce's Female Prescription, prescribed by a physician who specialized in women's ailments. Mrs. James Johnson of 17 W. 1st St., Salt Lake, says: "I had had headaches associated with feminine troubles and had an appetite. The best little medicine I ever saw. I could hardly sleep and became so weak I could scarcely get along. After taking Dr. Pierce's Female Prescription I feel like a new person. The headaches and the nervousness and feminine troubles disappeared. I am able to sleep, and I regained my weight. I got Dr. Pierce's Female Prescription from your druggist."

**Loyalty Of Kenya Native**

Wanted Government To Accept Three Pigs As War Offering

I am enclosing a letter from a Kenya native which you may consider worth publishing. It is a charming—and not unusual—example of loyalty. The letter, which was addressed to the District Commissioner, South Nyeri, was first published in the native paper which we are issuing now in order that the natives shall know exactly what is going on in Europe:

"Dear Sir—I beg you to accept me to offer my three pigs to Government, to be used in the war. I have kept three pigs only and I am in wanting them to be in the work of your Crown according my love and power like other fellows who have given up their lives in order to defend other people's lives. I felt heartedly as I have no knowledge or experience of any work, except these give them to Government, exactly as pigs which I decided that I must I would give up my life for our Kingdom to remain just to us as it has forever.

"In measuring my pigs, they are four feet in length, etc.

"Now, sir, I would be very much pleased to hear from you what you have decided for that question of these offerings.—Your obediently servant, KANOOGA S. O. NJEGA."

"After dinner" speeches are made before meals in Japan.

**3 Simple Steps**  
SPEED UP SAFE  
COLD RELIEF

Get this safest Fast Relief. Avoid long hours of painful discomfort

Follow Directions in Pictures

**Quick-Acting "Aspirin" Takes Hold**  
In minutes. Don't accept anything else

Take no chances with a cold. Follow the directions in the pictures above—the safe way millions use to relieve colds amazingly fast. It entirely avoids the dangers of taking strong drugs.

So quickly does Aspirin act—both internally and as a gargle, you'll feel wonderful relief start often in a few minutes. Try this way. Doctors recommend Aspirin because even when taken frequently they know it does not harm the heart.

WARNING! Aspirin is always marked with this Bayer Cross

Attempts Made To Penetrate Defences Of Scapa Flow

The success of a U-boat in penetrating the defences of Scapa Flow and torpedoing the Royal Oak was certainly a shock to the Navy. Five attempts were made by U-boats to penetrate the defences of Scapa Flow between 1914 and 1918, and all of them failed. Three submarines were destroyed in these attempts, one in most dramatic circumstances.

U-B 116, with a volunteer crew of officers, set out at the end of the war with the mission of sinking the Grand Fleet flagship. They did not know that the fleet was down at Rosyth and the Flow almost empty. U-B 116 crept along the channel in Hoxa Sound without opposition.

Her crew did not know that every movement of the boat was recorded on a screen in an observation hut ashore from the moment they entered the zone of electrical detectors. The U-boat moved on slowly until it was over a field of mines that could be electrically fired from the shore. The observer in the hut pressed down the switch. U-B 116's mission had failed.—Manchester Guardian.

**Their Pet Annoyance**

Road Hogging Hounded List When Motorists Registered At Show

When visitors were asked, at the recent Automobile Show, to record their pet annoyance at the booth where opinions on ways to increase safety were registered, says the New York Herald Tribune, they put road hogging at the top of the list. One rugged rhymer, desirous of putting his heart in his work, wrote on a ballot:

The road hog is a dangerous beast. You find him, driving west or east. Or north or south, by night or day; You wonder how he gets that way.

First mention made of windmills in old English documents occurs about the end of the 12th century. The oldest mill still extant dates from 1665 and is at Outwood, Surrey, England.

Earliest records of permanent waving go as far back as 3,000 B.C., when Babylonian ladies had their hair braided and treated with bitumen to preserve the curls.

**Pilot Training Scheme**

Says Every Canadian City Will Have Training Station

W. F. Schaylor, representative of a British aircraft company at Portsmouth, said every large city in Canada will have at least one and probably two training stations for plane pilots in connection with the scheme for training British Empire airmen.

"The training camps will have to be kept in the urban areas and not in the country," said Schaylor, who recently completed a tour of a number of Canada's aircraft plants.

William Harvey, discoverer of the circulation of the blood, was born April 1, 1578.

CHAPTER IX.—Continued

With May the high barrens began to wake from their winter's sleep. Shoulders of tundra thrust through their white blankets to expose lilac-green pastures of caribou moss.

Riding the brown snow water, after the ice left the Talking, came Alan and Noel in the canoe they had taken to the Stinking Lakes on the sled. When John and Heather returned from the barren with bags filled with cranberries, they planned their start.

"It will be June before the ice leaves the big lake," said Alan, "but we can take our stuff in the two canoes to the head of it and be ready to start when it does."

"Yes," agreed McCord, "we've got no time to lose."

On the last day, as they sealed doors and windows of the cabin against the sure attacks of bear and wolverine, Heather turned wistfully to Alan: "Remember, Alan, that day last winter when I came back to find you and Noel with Dad?"

"Do I remember?" he laughed. "Your eyes were like saucers and your mouth opened like that." He indicated the extent of the opening with hands held wide apart. "You wondered what kind of animals had drifted in out of the bush."

"I know now," she said, "that two good friends drifted in."

Alan gazed curiously in the girl's sober face. "Brace up, Heather!" he said, with a laugh. "Just think, girl, what a great time we're going to have!"

Her fine brows contracted as she returned his gaze.

"Do you think, Alan, we're ever coming back?" she asked. "I've dreamed such terrible things this winter. McCord will surely ambush

us when we start back with the gold—if we find it."

Its honey-combed ice flooded with pools of water, and entirely open in wide areas, from which rose clouds of vapor, the great lake reached, under the June sun, to the hills dim on the eastern horizon. For days the big Peterboro had waited while three men and a girl watched its frozen shell soften and break up.

"A few more days and we'll be able to start for the cache at the outlet," observed Alan, as he and McCord removed the gray kokomesh and silvery white-fish from their gill-net and returned to the hungry dogs who stood, breast-deep in the icy water, clamoring to be fed.

"Probably the ice at the foot of the lake is out by now," replied McCord, "and a good routh wind will start these big rafts up here. I wonder how close behind us McCord is."

"Not far, I'll bet. But he'll never get the two Conjuror River Indians to go down the river with him. We'll only have four to handle when the time comes. What are we going to do—let him dog us clear to the River of Skulls or—?"

"What do you say?" interrupted the big man in the other end of the canoe.

"I say I don't want to slave all summer and then fight for our dust. I'd rather fight now!" Suddenly Alan's gray eyes softened, as he added: "But then, there's Heather."

"Yes, there's Heather. Their game is to trail us, then wipe us out to get that gold, and what would become of her?"

"I've been thinking of her. I didn't want her to come. Now she's with us. I've turned Indian."

"You mean?" The cold eyes glittered beneath the livid scar on McCord's forehead.

"I mean when I think of Heather in their hands, I forget all law. It's a finish fight, John, and no quarter. They're going to make it their lives or ours."

McCord's big knuckled hands closed convulsively on his paddle. "A finish fight and no quarter, partner!" he repeated, huskily. "All law's off on the Koksoak! I know McCord. He'd wipe us out without a qualm. Then they'd murder Heather, later, before they reached the coast—leave no witnesses, no evidence against them. And they'd have our gold."

"There's another thing, John—the Naskapi. Drummond got by without meeting them. But we're bound to run into them somewhere on the Koksoak. We're passing through their country. We'll need luck when we do."

The giant nodded. "Let's hope McCord meets up with them first."

At last the south wind and the high June sun cleared the lake of its rotting raft-ice and the big Peterboro, in which they were to make the voyage, reached the hidden cache at the outlets. There the precious bags of flour, beans and pemmican which they were to leave with the extra canoe, were wrapped in tarpaulin and stored on the high platform. While the freshest water following the ice thundered down the three outlets into the flat valley to the north, the supplies for the summer were carefully overhauled and packed in bags. Spruce setting poles were cut and shod with iron. McCord had brought from Rupert. Every ounce of superfluous equipment was stored on the cache, for they could not guess what long portages awaited them on this unknown river that flowed hundreds of miles north to the sea; what churning white-waters around which they would have to pack canoe and supplies. Only the Naskapi and the caribou in their migrations had looked upon the upper Koksoak.

The water dropped rapidly and Alan and Noel returned one night from an inspection of the central outlet, which they were to follow, with the news that the river was now passable for a canoe. Following their daily custom, when the boys had eaten, they climbed to the nearest high ground to sweep the lake with their glasses.

Miles to the south, Alan's glasses picked up something of interest.

"What you see?" demanded Noel.

He handed the binoculars to Noel and waited for the Indian's verdict.

"Ah, ah!" grunted Noel. "Camp smoke!"

"Smoke hanging over that spruce point all right but whose smoke? McCord's or the Naskapi's?"

"De Naskapi hunt deer on de barren. Dat see McCord?"

Back at camp McCord listened to the news.

"Right on our heels, like wolves after deer, eh! Well, they won't find much deer in us!"

But Heather sat gazing into the fire, her brown face grave with foreboding. Noel, too, was silent as he worked on a paddle with his draw-knife, for the tales he had heard since childhood of the spirit-haunted rivers and the fierce nomads who

roomed the interior following the caribou herds harassed him.

Shortly after daylight, the Peterboro slid into the stant of the first drop of the outlet on its long voyage north. Past shores rimmed with red willows and alders behind which the young leaves of the aspen shivered in the breeze, apple-green against the olive of the spruce, they rode the strong water. Farther on, past bold, boulder-strewn shores and through lake expansions, they travelled beyond the sunset and into the after-glow.

In the morning, when they raised their net, Alan took from among the red-bellied square-tails and the whitefish, a graceful, dark backed, silvery fish and held it up for John's inspection.

"Ah-hah!" grunted Noel. "Camp smoke!"

"It must be a winnish, John, as sure as you're born. No sea salmon can get up here above all these falls and it's too early, anyway. We don't have these fellows on the coast—only the Herne's salmon, with red spots, in the Bay. This proves we're on Koksoak waters."

McCord's brown face widened in a grin as he examined the fish.

"Land-locked salmon, boy. I've caught them often in Quebec! Notice that line of black spots along the side! By glory, I'm going to have some fun, nights on this river, for I've got a rod and some flies—flies, lad! My Scotch blood wouldn't let me come without them."

To Alan's amusement McCord produced from a stout skin case, a jointed steel rod, a reel with oiled silk line and a small leader, and fly-book.

Good river men though they were, the next few days taxed the skill and strength of the crew. Chutes and white-water and fumes followed each other endlessly. Fast boulder choked shores where great cakes of ice left by the high water still melted in the sun, with terraces of stratified sand rising above them, the Peterboro lunged. Packing around roaring falls and rock-scoured reaches, they labored day after day, while always beyond the valley reached the pundra, its white moss

slopes stippled with flowers and mapped with caribou paths. (To Be Continued)

**A Balloon Lullaby**

Londoners Have Become Used To Sound Cables Make

The London correspondent of the Ottawa Journal, says it is revealing nothing to anybody to state that there are one or two balloons over London. As there are indeed, over Paris, Berlin, and quite a lot of other famous cities. In fact it may be doubted whether Europe was eve before quite so gay with colored balloons as it is now.

But it took Londoners quite a long time to solve one mystery. Every night we heard what sounded just like airplanes zooming just overhead. In view of the darkness—and the balloons—this seemed, even for our gallant knights-errant of the R.A.F., an inconceivably risky pastime. Now we know that what we took for the zoom of an aerial engine is really nothing of the sort, but just the curious sound of the wind blowing through the balloon cables.

Anybody who has ever walked in the country, and listened-in to the wind through the telegraph wires, will realize how this arises. This balloon-cable sound is much the same, only with a far deeper tone. Londoners now fall asleep to this soothing lullaby. We are, so to speak, rocked in the cradle of the balloon barrage. Whether a night may come when Hitler will supply the alarm clocks remains to be seen.

**A Cow On The Track**

Caused Trouble For The Engineer As Well As The Superintendent

I remember a trip I made, as superintendent, on the day we placed a new train schedule in effect. The train made an uncalled-for stop in the country and I walked up to the front end to locate the trouble. I found the train crew leading a milk-brooding cow off the track and an irate woman waving her fist in the face of an unusually meek engineer.

I was a godsend to that engineer, who introduced me as the "superintendent", and then made a hurried exit. I was the very man that woman wanted to see. Would I change the new time-table. What was the idea of running the train past her farmyard an hour earlier than usual? Didn't I know that it had taken three years for Susan the cow, to learn the hours at which she could graze on the right-of-way? It was not fair to the cow to put an entirely new schedule in effect overnight.

I couldn't argue with the lady and I was forced to listen to one of the most comprehensive lectures of my life. Perhaps I was a wiser and better man when the train got under way again.—The Late A. E. Warren on Early Railroad.

**For Safer Driving**

Engineering Developments Which Aid The Driver

That day has slipped into the remote past when highway safety was mainly a matter of traffic regulation. The engineering developments which have been made in all efforts to build safety into automobiles are so numerous that an ordinary motorist cannot name more than a few of them from observation.

Study of the "fatigue" of metals has led to the making of parts not likely to give way to shock. "Steering geometry" has guided engineers in designing apparatus to work easily and surely on curves, hills and the straight-away. Vibration has been reduced to prevent tiring of the driver. Even such a detail as the spacing of spokes in the steering wheel has been improved to give a clearer view of the instrument board.

Most comforting is the thought that all this has been done without requiring more technical knowledge in drivers who don't wish to think of engineering. The human element, though still responsible for most accidents, seems less hazardous.—New York Sun.

The south magnetic pole was determined most accurately in 1909 by Lieutenant Shackleton, at about 73 degrees south latitude and 156 degrees east longitude.

Green lights penetrate best in some fogs, while in others red lights are most effective; it all depends on the size of the moisture particles of which the fog is composed.

Annually, enough soil is washed and blown from the fields of the United States to fill a train of freight cars reaching 19 times around the world at the equator.

A species of cane grown in Marcellus, France, is the source of saxophone reeds. 2334

**To Ration Dollars**

Australia Is Planning To Adjust Economic Life To Meet Expenses

As a result of the prospective heavy expenditures in Canada for the Australian contingent of the empire's air force and the placing of large orders for aircraft in America, the Commonwealth is proposing to ration dollar exchange and classify imports from North America according to national needs.

Experts expressed the opinion that the proposal is a further step toward centralized control of Australia's economic life and suggested that possibly the whole empire's foreign exchange holdings might be pooled and then reallocated to the various dominions in accordance with their urgent needs.

The proposed rationing would mean a reduction of unessential civilian imports as Australia's war demands are expected to amount to \$5,600,000 (\$22,350,000) above present purchases.

Orioles can tie slip knots.

**Increase Fighting Force**

United States To Start Mass Training Of 40,000 Troops

Buglers of nine scattered army posts in the south and northwest signalled the fair start of mass training by 40,000 troops to provide the United States with its first sizeable, unified fighting force since the first Great War.

Five "streamlined" infantry divisions, one cavalry division, and auxiliary units will be put through four months of field manoeuvres ordered after President Roosevelt proclaimed a limited national emergency.

Meanwhile, intensified training of other regulars and of national guardsmen is in full swing, in parallel moves to assure teamwork.

The L.O. Lodge held a New Year's dance on Friday evening. A very good crowd attended, and a good time was had by all. Libkes' orchestra supplied the music. The sack of flour was won by J. S. Opdahl and the sack of sugar was won

by Jack Reynolds. Misses Maxine Johnston and Eileen Bethune were Saskatoon visitors on Thursday. The rink opened for the first time this season on Friday night with a very good turn out. Mr and Mrs W. Buyers and daughter, Mr A. Erickson and Miss Irene Butler of Saskatoon spent Christmas weekend at the home of Mr and Mrs A. H. Butler.

Mr and Mrs Earl Haight of Saskatoon sent Christmas at the home of Mr and Mrs R. Siddall. Miss Eris Poppewell of Dinamore spent several days last week with relatives in Hanley. Mr Lewis Duddridge of Winnipeg spent the Christmas holidays with his parents in Hanley. Miss Edith Kilpatrick left on Tuesday to visit relatives in Regina. Mrs H. M. Dixon and son, Harry, left on Tuesday for Calgary, Alta. where they will spend several weeks visiting Mrs Dixon's parents.

Born: To Mr and Mrs G. H. Chasmar, a son, on Tuesday, Dec. 28. The following rink went to Davidson on Thursday for the opening of the Davidson arena: K. Klippen, J. Malcolm, W. Sanderson, and A. Taylor skip. The following rinks went to Bisdworth on Friday and won the Johnson Cup by six points: A. Sunderman, B. Holland, J. Bradley, W. Sanderson skip; K. Bloom, C. Klippen, R. Knulson, H. Argus skip. Messrs D. J. Bethune, G. Gregg, L. R. Sunderland and D. H. Smith, attended the installation of officers of Lodge Progress, Saskatoon on Thursday.

L. R. Sunderland left on Thursday for a month's holiday at Vancouver, B.C. Mr and Mrs A. Grindheim and son spent Christmas at the home of Mr and Mrs Neil Currie at Hawarden. Mr and Mrs H. B. Lee and family and Bob Bohron spent Wednesday evening at the Tom Edwards home. Mr and Mrs Ted. Lawrence and family were Sunday guests at the Chas. Duddridge home. The following attended the Arena opening at Davidson on Thursday, Dec. 28: Mr and Mrs Jack Malcolm; Mr and Mrs A. T. Grindheim and son; Mr and Mrs W. R. Sanderson and Verna; A. Taylor, K. Klippen, B. Waunch, Ole Nelson and others. Mr Albie Smalls and Roy Falkingham arrived in Hanley on Jan. 1 to play hockey with the Hanley hockey team. Mr Willie Bohron and J. Sanderson left on Jan. 2 to attend a short engineering course at the U. of S. Mr Henry Bohron and A. T. Grindheim accompanied them to the city. Miss Ruby Lawrence of Weyburn, Miss Lillie Lawrence of Lajord and Miss Eunice Lawrence of Tisdale spent the Christmas holidays at the home of their parents Mr and Mrs G. Lawrence. Miss Gladys Trask and Mr Woodrow Trask of Rosetown spent the Christmas holidays at their home in Hanley. Mr Kenneth Budd of Saskatoon is holidaying at his home in Hanley. Mr G. Leckie and Miss A. Gregg of Regina, Miss Patricia Gregg of Saskatoon and Mr and Mrs Gregg and Geraldine of Dundurn were weekend visitors at the home of Mr and Mrs G. Gregg. Mr and Mrs Omer Olson and Miss Mable Anderson of Saskatoon spent the weekend at the home of Mr and Mrs J. Bird. Miss Edith Kilpatrick of Jordan River and Miss Josephine Kilpatrick of Davidson and Mrs R. Badger and daughter of Regina were weekend visitors at the home of Mrs L. Kilpatrick. Mr Harold Elliott of Roche Perce, Sask., spent the Christmas holidays at the home of his parents Rev and Mrs E. H. Elliott.

Mr L. A. Moore and the Misses M. and J. Moore of Kindersley spent Christmas with their parents in Hanley. Mr George Wilton of Lloydminster spent the holiday weekend at his home in Hanley. Miss L. M. Millsap spent the weekend at her home in Kenaston. Mr Gordon Kennedy and Mr Archie Brown spent the weekend in Regina. Mr and Mrs J. E. McGuire and family spent Christmas with relatives in Saskatoon. Mr A. Hannay spent the holiday weekend with relatives in McGe. Mr and Mrs H. Parker and family of Regina spent the weekend at the home of Mrs Parker's parents Mr and Mrs R. Nixon. Mr J. Mollroy of Bulyea, Sask., spent Christmas weekend at the home of Mrs Blewett. Mr Bradley of Harrison, Ont. is visiting relatives in Hanley. Miss Olive Claxton of Saskatoon spent the weekend at the home of Mr and Mrs R. A. Moore. Mr Fred Dingwall sent the weekend at his home in Asquith. Mr John Wauters of Edam is visiting at the home of Dr and Mrs E. H. Lee. Mr B. Hingston spent the weekend with friends in Dinamore. New Year's Day the Hanley Curling Club held a special draw among the local rinks. The draw was a knock-out with Jim Bird and his rink winning out in the finals against W. Sanderson. The Booster Club held a very successful New Year's dance on Monday evening. Kirby's orchestra from Saskatoon furnished the music. Mr Harold Elliott left on Friday for Macklin to begin teaching

duties. Miss Ruby Lawrence has returned to Weyburn having spent the Christmas holidays at her home in Hanley. Born: To Mr and Mrs W. F. Buckley, a daughter, on Thursday, Jan. 4. Mr and Mrs G. Gregg and Ina, Mr and Mrs H. B. Verney and children were Saskatoon visitors on Sunday. Dundurn Sr. hockey team played here on Saturday evening. The game ended in a tie 2-2. This was the first time Dundurn Sr. were on ice this season, and they certainly played hard from start to finish. Hanley defeated Outlook on Thursday evening of last week 11-2. The Pes Wee hockey team went to Kenaston on Saturday afternoon and defeated their opponents 3-2. Mr and Mrs A. C. Brown and Noreen returned home on Tuesday having spent the holidays at Keatley.

Mr and Mrs A. Bird and family, and Mrs Henry of Loreburn were Sunday visitors at the home of Mr and Mrs J. Bird. The first hockey game of the season was played here on Monday, Jan. 1 when our local boys defeated Kenaston 3-2. It was the first time on ice for some of the boys, but we are sure they will be in better condition after some practice. J. Malcolm handled the bell to the satisfaction of all.

**HOCKEY PLAYERS**  
If your old hockey nets are worn out why not order new ones. I made some for the new Davidson Arena. Let me make some for you. 18 feet by 6 feet \$18.00 Per Pair A. J. Mount, Davidson.

Miss Ruby Lawrence of Weyburn, Miss Lillie Lawrence of Lajord and Miss Eunice Lawrence of Tisdale spent the Christmas holidays at the home of their parents Mr and Mrs G. Lawrence. *A Call*  
**TO SERVICE on the Economic Front**

"Materials and money count for so much in this war that a resolute, loyal and enthusiastic economic front line may be the determining factor."

*M. Pralatin*  
MINISTER OF FINANCE

To your restless question "When can I help win this war?" — the answer is NOW. On Monday next, the Government of the Dominion of Canada will offer the First War Loan. The purpose of this Loan is to provide money to carry on the war, not only on the battlefields, but all along the Economic Front.

Let us explain what the Economic Front means. It means a war in which the entire natural, industrial and financial resources of the country are used to defeat the enemy. It means a "total war" in which every citizen takes a part, in which his personal resources must support those of the Nation.

In such a war, one of the chief weapons is money. Where is this money to come from? There is only one answer. It must come — and come voluntarily — from the savings of our people. The difference between us and the Germans is that we, of our own free will, lend our money — it is not ruthlessly taken away.

This is your opportunity to do your part in this struggle against Hitlerism. The eyes of the world are upon you, upon Canada, one of the strongest members of the British Commonwealth. Canadians must show that their strength, their courage and their resources are all in this fight against "brute force, bad faith, injustice, aggression and persecution."

The news of the success of this Loan must go ringing round the world.

Be ready to buy War Loan Bonds. They will have the proven safety and salability of Dominion of Canada obligations. Any Investment Dealer or Chartered Bank will take your subscription. The quicker the economic war is won, the greater will be the saving of human lives... the swifter the collapse of the enemy.

THE GOVERNMENT OF THE DOMINION OF CANADA
