ROULEAU, Saskatchewan, Thursday, May 25, 1944

5c per single copy

**P. M. King In London:** Speaking before members of both Houses of Parliament in London on Thursday, May 11th, Prime Minister Mackenzie King stated: "Like the nations of which it is composed, the British Commonwealth has within itself a spirit which is not exclusive, but the opposite of exclusive. Therein lies its strength. That spirit expressed itself in co-operation.

Therein lies the secret of its unity. Co-operation is capable of indefinite expansion. Therein lies the hope of the future." Above, before the first talks of the conference between Commonwealth Prime Ministers began, Vincent Massey, High Commissioner for Canada; Sir Archibald Sinclair, British Air Ministry; Canada's Prime Minister and Peter Fraser, Prime Minister of New Zealand hold an informal outdoor discussion.

## Explains Delays In Delivery Of Mail For Overseas

Recently in reply to a number of complaints of delay and non-delivery of mails to and from the members of the Canadian armed forces overseas, Col. W. P. Mulock, postmaster general, gave a statement to the House of Commons, describing in some detail the means and methods employed to give letters and parcels the quickest possible delivery. His statement in connection with airgraphs and armed forces air letters is as follows:

"So that you will have some idea of the reasons for delays which have occurred and the average time which it takes for to handle and transport mails from Canada to overseas forces under present conditions, I am going to place on record data taken from actual mail service operations from Canada to the United Kingdom and the Mediterranean theatre. Similar times and conditions also apply to mails moving westbound.

Airgraphs and armed forces air letters—Eastbound, carried by Royal Air Force Transport Command; average time from point of mailing in Canada to delivery in England—Army, 10 days; RCAF, 13 days.

Overseas mail—Date of mailing, 1st day; airtransport to base post office, 2nd day; handling and sortation into unit packages at base P.O., 3rd day; transit to airport and awaiting take off (average 2 days), 5th day; air transit Canada to United Kingdom, 6th day; rail transport from airport in U.K. to Canada overseas postal depot, 7th day; sorting into bags and dispatch to railhead serving unit, 8th day; unloading at railhead, transport to supply point, thence to unit, 9th day; arrival at unit for delivery,

10th day. Letters for the personnel in the RCAF, especially those at RAF stations, take on an average 3 days longer as items are routed through the postal directory for location and delivery is affected through U. K. civilian postal channels, 13th day.

The number of armed forces air letters carried across the Atlantic has now reached one and a half million per month. Airgraphs normally take four or five days longer due to photographing in Canada before dispatch and the reproduction of the message in the United Kingdom on arrival.

Letters to RCAF personnel cannot be delivered to units in the same way as letters for army units. This is due to frequent changes in location of squadrons, and individuals. It has been found by experience that in most cases delays are reduced if items are first passed through RCAF postal records.

Ed. note.—In the next issue airgraphs and armed forces air letters to the Mediterranean will be given in detail as above, to be followed by a detailed outline of the service given to parcels and tobacco and cigarette parcels to the United Kingdom and the Mediterranean.

## BLOOD CLINIC HERE JUNE 8TH

Final arrangements have been made to have the Blood Donors Clinic here on June 8th. The local committee has been asked to arrange for 60 donors. Contributors may hand their names in to Mrs. Ella Tutt, Ray Chambers, or S. K. Johnston. Please keep the date in mind.

## The Sick

Miss Florence Gruver, a patient in the Grey Nun's following an operation for appendicitis, was released last Saturday and returned to her home in Rouleau the same day.

The young son of Henry Schmidt, who was released from the Grey Nun's about a week ago, has since coming home developed an abscess in the wound where the incision was made.

Gerrod Joynt, young son of Angus Joynt, is still in the Grey Nun's. It seems that one thing followed another since he was operated on for appendicitis, for now he has developed an abscess in the abdomen. He has been a patient there for some seven weeks.

Mel Jackson is reported as making slow but steady progress and it will be in all probability another week or two before he is ready to come home.

Miss Eleanor McKean was rushed to the Grey Nun's last Sunday night and operated on immediately for appendicitis. Her condition was reported as being good at the time of writing. Her father remarked that he was the only one of the family left now with an appendix.

Miss Caroline Rogers, the daughter of Mr. and Mrs. John Rogers, had the misfortune to break a bone in her foot while playing at school last week. She was taken to Regina where the bone was set and her foot placed in a cast.

## FINAL FIGURE IN VICTORY LOAN \$142,300

A total of \$142,300 is the final figure given as the result of the Sixth Victory Loan. This time 418 bought bonds as compared with 363 in the fifth loan.

## Ships Outfit North For Road Contract

The loading platform in the C.P.R. yards was the scene of considerable activity last Friday and Saturday when the road-grading equipment and accessories, property of Harvey Tutt, was being loaded on four flat cars. It consisted of two large D8 caterpillar and one D4 tractors. One of the larger had its bull-dozer attachment as well as an automatic air dump attached. Besides a second large scraper there were two trucks, a bunk car, and a welding plant unit mounted on wheels. All vehicles with the exception of the three tractors were mounted on rubber. Mr. Tutt estimates that the equipment as it stood there would be valued at \$50,000 as prices are today, and this represents only the part necessary to complete his road building contract.

Mr. Tutt has been given the contract of building 75 miles of government highway running east from Prince Albert to White Fox. This piece of road has been partially done and his contract calls for its completion. He also has a contract for a shorter piece of highway running west from Prince Albert.

The equipment was taken by freight on Saturday afternoon and was expected to be in Prince Albert ready for unloading by Monday morning. Mr. Tutt with members of his crew, namely Carson "Bus" Haig, and George Southward left on Sunday by car. "Hap" Hantelman expects to follow them shortly. More operators will be required and these will be obtained at the northern point. Mr. Tutt hopes to be able to operate on a 24-hour basis once he gets properly started on the building program.

## DISTRICT GETS HEAVY RAINFALL

Rainfall (Searle Grain Co.): past week, 1.91; April 1st to date, 3.22; same date last year, .55; long time average, 2.25.

Starting late in the afternoon of Monday a heavy rain fell almost continuously all through the night to give the district one of the heaviest rains for some time. Up to Tuesday morning a total of 1.76 inches fell. Although the crops were not suffering at all the rain was most welcome as the supply of subsoil moisture is not at all adequate and crops would have suffered had the weather turned hot as is often the case at this time of year. During the past week heavy showers have been experienced in districts to the east and north. This last rain was quite general throughout southern Alberta and Saskatchewan.

Wheat seeding in the Rouleau district is completed and possibly 80 per cent of the coarse grains sown. With the heavy rain the crops should show a definite improvement. Some of the earlier grain sown is up two to three inches and looking very good.

## FORMER RESIDENT DIES IN REGINA

Mrs. Adeline Hart, 68, wife of John T. Hart, Khedive, died at the home of a daughter, Mrs. F. W. Alexander, Regina, last Tuesday. Born in Ontario, she came to Saskatchewan 38 years ago and had lived in the Khedive district since. Surviving are her husband; a son, Russel G., at Khedive; two daughters, Mrs. Alexander and Adeline, Regina; and a brother, George Morrison, Harrison, Ont. Funeral service was held Thursday afternoon of last week, Rev. J. Scott Leith officiating. Burial was in the Regina cemetery.

## News Of The Forces

AC2. George Horsburgh, who has been stationed at Brantford, Ont., has been posted to Greenwood, N.S.

LAW. Delphine Dyck, RC AF, of Prince Albert, visited over last week-end with Mr. and Mrs. Ira Adams and renewed acquaintances with her many school friends.

Cpl. R. F. Paustian is now stationed at No. 22 Canadian General Hospital, Sussex, N.B.

In a letter to his parents, Sgt. Bill Lee wrote that he had received letters that had been salvaged from the Mediterranean and was able to read parts of them. The letters were some that were written presumably in March and as in some cases had to be abandoned due to enemy action, and later salvaged. Bill writes further that his wife who had been nursing at a hospital in London had since been transferred to Oxford somewhat remote from the bombed area. He tells further of the consideration of authorities in Italy when Bill's chum received word that his home in England had been bombed and his baby killed. The authorities permitted the grieved father to go back to England, an understanding which does much

to maintain the high standard of morale in the British army.

ODV/S. Neil Mitchell arrived from the East last Saturday and is spending his furlough with his parents here. Mrs. C. H. Mitchell, Neil's mother, who has been teaching at Hilda, Alta., arrived here last week to spend the holiday with her son.

It was reported in error last week that Capt. Rondeau was in Toronto. Capt. Rondeau returned from that city last week having completed his three-week course in postgraduate work and is at present in Regina.

"Play ball". That's the cry echoing over the CWAC softball diamond these evenings as the girls get into form. The reason for the undue exertion is that they have a team entered in the Regina softball league and they are determined to make a good showing if practice can do it. The members of the team are girls from all over Saskatchewan. In their initial city league appearance they came out second best despite the fine showing made by their pitcher, Pte. Hazel Chambers, Rouleau. Also on the team is L/Cpl. Ida Chambers.

**LOCAL HAPPENINGS**

Mr. Muller, superintendent of schools, was a visitor at the Rouleau Public School last week. As Mr. Muller has been only recently appointed to this inspectorate his visit was more of one to get acquainted with the Rouleau staff and pupils.

Paul Rondeau arrived home last week from Edmonton where he was attending the Initial Training School of the RCAF for university students. Prior to this he was successful in completing his first year as a pre-medical student at Regina College.

The Women's Missioary Society wish to thank all those who so kindly donated eggs for the Orphanage at Indian Head. The appeal for these eggs was made some time ago and at first the response was rather slow, however, the society is pleased to report that 42 dozen were received and have been shipped to the orphanage.

Miss Margaret Jackson and Don Cleal, both of Regina, were week-end visitors at the Jackson home.

On Saturday Mr. Westbrook received a wire to the effect that his niece, Miss Mary Niblock, a war guest who recently left for Montreal, had been given permission to return to England on the next available boat. Some necessary wires and cables had to be sent to Montreal and England and after considerable expense had been incurred and when Mary's mother in England, learned that Hazel Stanley-Smith, a cousin and companion since their arrival here almost four years ago, was unable to accompany her back, cabled that Mary was not to come unless Hazel was permitted to come as well. Passage that was booked for Mary had to be cancelled.

We regret that the name of Miss Genevieve Singleton was omitted from the list of graduates at convocation exercises of the University of Sask. last week. Miss Singleton graduated with a Bachelor of Arts degree.

The poolroom and barber shop has taken on a decidedly improved appearance since it has been acquired by the present owner, Mel Assen. Besides a complete renovation Mr. Assen plans on installing a line of confectionery and refrigeration for soft drinks in the near future.

Miss Evelyn Switzer and Miss Lois Hanna, Regina, were week-end visitors with Mr. and Mrs. Dawdy.

Mr. and Mrs. Ross Campbell of Disley were the guests of Mr. and Mrs. J. Tutt over the week-end. They brought one of their horses along too and

had some competitive workouts on the local race track, no doubt in preparation for the race meets this summer.

Henry Spooner, Regina, and Mrs. Hansen, Weyburn, were visitors of Mrs. F. Spooner over the week-end.

The paper salvage drive is on so bundle up all waste paper and it will be collected. In the smaller centres such as this one, a truck is being sent out from Moose Jaw in a radius of 100 miles or so to pick up the smaller quantities of paper. Any paper except tar and wax paper is acceptable. Paper is most urgently needed

**HERE ARE THE FACTS!**

**RUPERT RAMSAY**  
Leader of the Saskatchewan Progressive Conservative Party

Rupert Ramsay has spent 39 of his 44 years in the Province of Saskatchewan. After a boyhood spent on his father's farm near Bladworth he entered the University of Saskatchewan. He graduated with the degree of Bachelor of Science and was appointed to the staff of the College of Agriculture. In 1932 he received his Master of Science degree at the University of Minnesota.

Rupert Ramsay is widely known for his keen interest in farming and farm problems and for his intensive work for the betterment of farming conditions throughout the province. Added to this is his fine work as President of the Saskatoon Welfare Association and as an active member of the Saskatoon Rehabilitation Council in vocational guidance.

With his practical farm background, his scientific training in agriculture and his widespread knowledge of the province, Rupert Ramsay is eminently fitted to become the next Premier of Saskatchewan.

**SASKATCHEWAN** is facing the most vital election of her history. Voters in the Province are disgusted by the political trickery of the Liberal Machine, and are intensely distrustful of the wild promises of the Socialists.

A middle road has been provided for the Saskatchewan electorate by the strongly resurgent Progressive Conservative Party. In brief below, are set out some of the outstanding points of the sane, sound and workable programme put forward by the Party.

These are not wild promises or vague theories. A Progressive Conservative Government CAN and WILL put them into effect.

**AGRICULTURE**

Fair prices for farm products. Planned agricultural education. Development loans to raise living standards in Northern settlements. Low interest rehabilitation loans for farm buildings, repairs and home facilities. The expansion of scientific research in efficient production and utilization of farm products. Immediate introduction of a Farm Bureau Act to give each farmer a voice in the planning and organization for agriculture of his own district.

**INDUSTRY**

Long term loans for the establishment of local industries utilizing farm products. Loans for the establishment of farm machinery and equipment repair depots to be run by returned men of the armed forces. Special encouragement to coal and mining to stimulate our potentially great coal industry. Preference to be given to returned men and women in all available jobs, both in the Civil Service and elsewhere.

**LABOUR**

A sound co-operative partnership between agriculture, labour and industry, so that each may obtain a just share of the national income. Collective bargaining to promote the interests of labour, industry and the people as a whole. The establishment wherever possible of Labour-Management committees. A widened scope and strengthened administration of Provincial Minimum Wage Legislation.

**EDUCATION**

Higher standards of teaching. The reconditioning and modernizing of school buildings. The enlargement of University Scholarships to ensure higher education for worthy students. Revision of the High School curriculum. Establishment of experimental units of School Administration.

**SOCIAL WELFARE**

The creation of strong, competently staffed and separate Provincial Departments of Health and of Welfare. Stronger methods to combat juvenile delinquency. Wider provisions for the care and protection of children. Increased aid to needy mothers. A really effective health programme free from all political influence. Extended health service for all people regardless of income.

**NATURAL RESOURCES AND ROADS**

The establishment of a committee of enquiry on natural resources. A long term plan for the full utilization of the Province's potential wealth. A progressive and intelligently planned highways development programme to provide Saskatchewan with roads to serve the people and encourage tourist traffic. Adequate market roads for all municipalities by a system of equalization of grants. Road grants to be removed from political influence.

**For an HONEST and WORKABLE GOVERNMENT IN SASKATCHEWAN**

**Vote Progressive Conservative**

## Measure Spaces Between Rows In Victory Gardens

Garden authorities stress the importance of planting rows of seeds a certain distance apart, depending on the type of seed. Carrots and lettuce: rows of carrots ought to be from 15 to 20 inches apart, lettuce rows 15 inches apart.

Onions: rows of onions should be 15 inches apart and plants spaced every two to four inches.

Peas: experts say that peas should be in rows 30 to 36 inches apart, the plants separated by two inches with about two inches of earth over them.

Beans: beans require 24 inches between rows, the plants two to four inches apart, seed covered with two inches of earth. Rows of seeds planted too far apart waste valuable garden space.

### WHAT'S DOING ?

June meeting of U.F.C. ladies, Tuesday, May 30th at Mrs. Lekivetz. Roll call—resolutions for farm women's week.

### Oil Bearing Seeds

Objectives for 1944 in oil bearing seed crops are—flax-seed, 2,800,000 acres, five per cent below the 1943 average; soybeans, 90,000 acres, 78 per cent more than in 1943; rape seed, 147 per cent above last year, and sunflower seed, 50,000 acres, a 72-per cent increase over 1943.

# "Let's Keep Socialism Out of Saskatchewan!"

"I've read the C.C.F.-Socialists book 'Make This Your Canada', which is the basis for all their plans and policies and I don't like their ideas one little bit.

And when their leaders start making speeches suggesting that if they can't put in their plans by evolution they'll do it by revolution, that's enough for me.

The way I see it, all they need is power and then they can start right in to tell me what I can and cannot buy. What I can and cannot grow, the kind of clothes my wife must wear, what school my children must attend, what doctor I must call.

Just now, C.C.F.-Socialist doctrines are being loosely tossed about in this Province on a rising tide of strange promises.

Mostly these take the form of wonderful benefits for you through heavy taxes or compulsory levies on someone else! Don't let them fool you. It's your home. Your farm. Your business. Your money. Your bonds. Your life insurance. Your future opportunity that the C.C.F.-Socialists want to experiment with.

No! This is too serious a time to go fooling around with a lot of ideas that have never worked before and by people who can't even agree among themselves as to exactly what kind of Socialism they'd give us. Since I'm doing all the work and taking all the chances, I'd like to make a little profit on my efforts. Wouldn't you?

Billy Patterson has given us honest, sincere, beneficial Government and his plans for the future will assure security, progress and prosperity."

## Vaccination Is Important

Vaccination of horses against encephalomyelitis and inoculation of pigs against swine erysipelas is strongly recommended by officials of the Saskatchewan department of agriculture. Dr. J. L. Millar, provincial veterinarian, this week stated that there was grave danger of an outbreak of encephalomyelitis and advised all horse owners

to have their animals vaccinated as soon as possible. Sufficient vaccine for one horse can be obtained for 75 cents from any drugstore. Each horse requires two vaccinations spaced 7 to 14 days apart.

"If farmers postpone vaccination of their horses until an outbreak of the disease occurs, there may not be suffi-

cient vaccine to meet all demands," Dr. Millar emphasized.

He recommended also, that, if outbreaks of swine erysipelas had ever occurred on their premises, farmers protect new litters by inoculating baby pigs with two doses of Anti-Swine Erysipelas Serum. The first dose of at least 5 c.c. should be administered when pigs are from 6 to 10 days old. A second injection of 10 c.c. should be given four weeks later.

## Malting Barley

Farmers usually sow barley quite late, but experiments have shown that to obtain the malting grades, barley must be sown quite early and on clean land. Above all the seed must be free from oats.

## Hot Welcome For Nazis

Present air attacks on London are being met with the heaviest and most concentrated anti-aircraft barrage of the war, equipped with guns far faster and more accurate than in the days of the Blitz of 1940-41.

## The End Of May

The poets have long been wont to write  
On the month of June as well they might,  
But it's not to June I would indite

This trivial sort of lay;  
I never could muster a line sublime,  
But don't mind giving a tithe of time  
To penning this plain and simple rhyme  
Which I christen, "The End of May".

For I had a girl, in the long ago,  
Whose name was May and I'll have you know,  
Her cheeks had a delicate peach-bloom glow,  
And her eyes were a greenish gray;  
She was a pippen with which to spoon,  
She said we'd wed in the month of June,  
And I felt pretty sure it would be right soon,  
For that was the end of May.

She went one day, at its somber wane,  
To the railroad station to meet a train,  
This rhyme is beginning to give me a pain  
But I haven't much more to say;  
There was no use blaming the engine crew,  
For the engine whistled and said, "Toot Too,"  
But she stood on the track when the train went through,  
And that was the end of May. —R.G.C.

# CCF Land Policy

READ IT!

REMEMBER IT!

SUPPORT IT!

The public is continually told that the CCF intends to take the ownership of the farms away from the farmers. This is absolutely untrue, always was untrue and always will be untrue.

## THE FARMERS THEMSELVES HAVE PIONEERED AND FINANCED THE CCF

The CCF came into existence because large numbers of farmers were losing their farms — and because many farmers could see no hope of saving their farms unless some drastic action were taken. The constitution and programme of the CCF were drawn up by the people themselves. So it is not a question of what the CCF will do for the farmers, — but the question is what the farmers will do through the CCF Government which the farmers themselves have pioneered, financed and will elect. The entire CCF programme has been developed at conventions

composed of delegates elected by the general membership of the CCF. In 1934 the Saskatchewan CCF Convention put into its platform a clause which provided that any person who wanted to, should have the privilege of exchanging their Torrens title, which can be mortgaged, for a Usehold title, which cannot be mortgaged. There was nothing compulsory about it, but it gave our opponents an opportunity to frighten many people into believing that the CCF intended to take away their farms.

## THE CCF 4-POINT LAND POLICY

In 1936 the Saskatchewan CCF Convention took the Usehold Title proposal out of their programme and substituted the following four-point Land Policy:—

1. A CCF Government will protect the farmer from unjust foreclosure and eviction.
2. A CCF Government will protect from seizure that part of a farmer's crop that is needed to provide for his family.
3. A CCF Government will use, if necessary, the power of moratorium to compel reduction of debts to a figure at which they can reasonably be paid with prevailing prices for farm products.
4. A CCF Government will prevent the growth of debt by placing a crop failure clause in all mortgages and agreements of sale.

These four proposals constitute the land policy of the Saskatchewan CCF and each one of them, like all other CCF policies, have come from the people themselves. Is there anything in these proposals that looks to you like an attempt to take away

your farm? Does it not seem to you that, for the first time since Saskatchewan became a Province, the farmer will have security on his farm if these pieces of legislation are put into effect?

## 12,292 FORECLOSURES AND EVICTIONS IN 6 YEARS!

Remember that the same people who tell you that the CCF will take away your farm are the very ones who for nearly 40 years have permitted the Mortgage Companies to take away the farms of some of your neighbors.

From 1935 to 1941 the Liberal Government permitted 12,292 foreclosures and evictions in Saskatchewan. Today 25 per cent of the Saskatchewan farmers are renters, whereas 40 years ago only 4 per cent of the farmers were renters.

## WHY HAVE YOU HAD NO SECURITY!

Because the Saskatchewan Government has been the tool of the Mortgage companies and vested interests.

It's time we elected a people's Government rather than a Mortgage Companies' Government.

**Editorial**

**WHEN WILL MEN LEARN?**

The more intelligent a man is, the more truth he finds in the Bible . . . . The Bible is God speaking to man. He speaks to every reader in different accents. . . . .

The reason society is in its present conditions is that man has never learned to believe in God. The creature refuses to acknowledge he has a creator. The prisoner spurns the air. The slave of vice remains in bondage rather than transform himself into the son of God. . . . .

The essence of religious living is the intelligence to serve God in preference to mammon. But what does man do? How does man react when he is obliged to choose between the higher values and the lower? With amazing obtuseness, man chooses wrongly—material riches in preference to freedom; the flattery of others in preference to self-respect; the pleasures of indolence and vice in preference to the vitality of body and soul.

So little do men believe God that they think they can have their cake and eat it, too. They do believe they can serve two masters. When forced by inexorable circumstances to choose, however, most take mammon. Some prefer God. These are the free men, the aristocrats of earth and the saints of heaven. Against them there is no law.—Paducah (Ky.) Sun-Democrat.

**THE FUTURE FOR OUR FIGHTERS**

If ex-service personnel wish to return to the position which they held prior to the war, is there any provision insuring their reinstatement?

The Reinstatement in Civil Employment Act was one of the first measures passed. Under this Act it is laid down that is an employer's duty, if application is made, to reinstate ex-service personnel who were bona-fide employees for at least three months immediately prior to enlistment.

Is this a blanket ruling or are there any exceptions? Reasonable safeguards, both for the employer and the employee, were made. For instance, if the ex-service personnel was hired in civil employment to replace a man who was already in the services and the original employee in that position had applied for reinstatement, then the original employee has the preference.

Are there any other regulations? Yes. Steps of necessity had to be taken with regard to the possibility of changing economic conditions. For instance, an employer's business might be seriously jeopardized by the war and he might not be able to offer employment which was as good as, or better than, the situation the ex-service man left. In this case proceedings will not be taken against the employer under the Act if he offers employment under the best possible conditions and if he is not retaining someone else in the position that ex-service personnel left to enlist.

Is seniority protected under the Reinstatement in Civil Employment Act?

Yes. Ex-service personnel employed in an industry where there are seniority rights must be reinstated with seniority for the period spent in the services. If there are no seniority rights the employee must be re-engaged with preference according to the first date of employment and on terms no less favorable than would have prevailed had the period of employment not been interrupted by war service.

What about disabled personnel under this Act? If the employer can show that ex-service personnel are physically or mentally incapable of doing work which he has to offer, the Act does not apply.

Is reinstatement in civil employment a permanent right or is there a time limit?

Onus is on the ex-service man to apply for reinstatement within three months after discharge from the forces or from hospital in Canada, or within four months of similar discharge overseas.

Who administers this Act? It is administered by the Department of Labor and cases of infractions may be reported to the nearest Employment and Selective Service Office.

Discussions have recently taken place in Delhi on the problem of providing a co-ordinated health service throughout India, together with the problem of promoting medical research, the development of research activities in medical colleges and hospitals, the training of public health engineers, sanitary inspectors and dentists and problems dealing with malaria and tuberculosis.

**From Our Early Files**

**TEN YEARS AGO—**

Grasshoppers have appeared and some light damage reported.

Between 400 and 500 people attended the Hearne sports on the 24th. Rouleau boys team won the softball tournament. Avonlea the men's softball and Bayard the girls'.

Mrs. Thaker of Silton, president of the Local Council of Women, addressed a meeting of Rouleau W.C.T.U., attended by members from Avonlea, Briercrest, Hearne and Regina.

Miss Marjorie Cochran graduated with the degree of B.A. from the University of Manitoba.

Cecil Smith won the University of Sask. scholarship for the most efficient student in Grade 12 attending Luther College.

**TWENTY YEARS AGO—**

Rouleau Ladies Band was awarded the championship for class B military bands at the Sask. Musical Festival.

Oddfellows and Rebekahs numbering 30 attended divine service in United Church on Sunday afternoon. They were treated to a fine sermon by Rev. J. H. Toole.

W. C. Stewart leaves soon to open a garage at Neilburg, Sask.

Friday was visitors' day at the public and high schools. Mr. Walker's room had a debate for the benefit of the visitors.

Malcolm McNaughton, of the Briercrest district, died at his home in Briercrest.

**THIRTY YEARS AGO—**

Rouleau Cadet Corps under the supervision of their C.O.,

E. W. Byers, held their annual picnic at the Moose Jaw river dam. Some 40 were present including high school girls from the two senior rooms.

The Soo Line W.C.T.U. three-day convention was held in Rouleau with many delegates from outside points. Miss F. Tuft was the winner of the election contest, senior, Miss Zelma Wilson placed second in the juvenile division.

W. A. Cochran passed his provincial optical examination, standing first in his group and was awarded a gold medal.

He is installing the latest equipment for testing eyes in his jewelry store.

COLOMBO—Ceylon's crude rubber production exceeds the combined output of all the other territories accessible to the Allies.

In India the "Mosquito" fighter and reconnaissance bomber is being used over the Burmese rivers against the Japanese barges and other small craft and the result has been deadly. The mortality rate amongst these, already high, has been stepped up still further by this swift twin-engined monoplane.

**C.C.F. CANDIDATE FOR MILESTONE PROVINCIAL CONSTITUENCY FRANK K. MALCOLM**

Born on a farm near Toronto, Ont., and educated in that province, Frank K. Malcolm came west, when a young man, to Calgary, Alta., where he worked as a plumbing engineer. While in Calgary he became a member of the Presbyterian Church (later the United Church) and attended the first Y.M.C.A. Conference at which the church's present program for boys was established. From this conference he was chosen and served as probation officer for the Juvenile Court of Alberta.

FRANK K. MALCOLM

The urge for rural life took him to Aneroid, Sask., where he developed a homestead and built a comfortable home. During this time he was a member of the Grain Growers, United Farmers and a member of the Wheat Pool since its inception. He is experienced in organization work, having organized several Men's Clubs and study groups.

Mr. Malcolm continued his interest in the church, and when crops failed he was invited into the ministry, and has given both part time and full time service for several years.

In 1933 he attended the organization meeting of the C. C. F. in Regina and took an active part in the 1934 Provincial election, the 1935 election, and the 1938 Provincial. In 1935 he was C.C.F. candidate in the by-election in Gravelbourg Constituency.

Milestone Constituency CCF Committee

By DR. E. W. HEATHY Director Live Elevators Farm Service

Conserving Moisture. \* Crops sown on summerfallow this spring will benefit from moisture accumulated since about August, 1942, as well as from rain which we all hope will fall this summer. Under average conditions, this involves about 80 inches of precipitation.

Experiments conducted by the late Sidney Barnes at the Dominion Experimental Station, Swift Current, over a period of 11 years, merit careful study by all dry land farmers. Of the total precipitation which falls during the summerfallow period of 30 months (for example, August, 1942 to April, 1944), not more than 30 percent is available to the summerfallow crop. What becomes of the rest?

1. Some percolates down through the subsoil; but this loss is negligible except in humid areas.
2. Some runs off the field.
3. A lot evaporates.
4. Too much is used by weeds.

We may ignore No. 1. Trash cover and, where feasible, contour tillage will reduce losses from No. 2. Loss from No. 3 is almost entirely unavoidable. With respect to No. 4 it is significant that Mr. Barnes considered that preventing weed growth was the most important feature of summerfallow tillage. In his experiments, wheat yielded more than twice as much when weed growth on the fallow was prevented as it did when weeds were left alone until being plowed under on July 15th.

It takes at least 300 pounds of water to produce one pound of dry dead weed material.

# LISTENING WITH SCOOP LEWRY.

Starting June 18th, for the fuller service of CHAB's country listeners, a new evening newscast will be introduced. The new set-up will give a news broadcast at 9 o'clock each evening especially for the country listeners and a further news broadcast will be heard at 10:30 p.m. covering more particularly city news.

For an enjoyable hour of pleasure tune to CHAB each Monday night from 7 to 8 o'clock. At 7, CHAB staff members take the air with the station manager, Carson Buchanan, for a program of "The Greater Dixie Minstrels." And at 7:30, "Information Please," the well-known streamlined quiz show, is aired. Don't miss these two top notch shows.

Eileen Bradley with her program of friendly gossip and neighborhood news now takes the air over the Moose Jaw station each week-day afternoon at 2 o'clock. "People Patter," with Eileen gives listeners the low-down.

For your own program of country news—items from this weekly newspaper, tune to CHAB each week-day morning between 6 and 6:45 when the items are heard along with the best wake-up music available.

C. B. Lynch is one of the busiest men in town these days getting the deputy registrars and enumerators lined up for the election on June 15th. Miss Genevieve Singleton will act as his assistant until after the election.

## Letters From Overseas

From Len Crawford: Received your most welcome letter today and as always, was very glad to hear from you. Well, I guess I'll be leaving for the hospital either tomorrow or the next day. Was down for an examination today, just to have the trouble verified and to find out when I will be admitted. I will be in the hospital some time, I'm told, as such an operation takes time to heal, needless to say keep the letters coming. Of course it won't be so bad once I get acquainted. I will be in the 13th Canadian General Hospital.

I wish you could thank the Local Soldiers Fund for the cigarettes I received the other day, they were most welcome, also thanks to Aunt Jessie and yourselves for yours too, received on the same day. I received a March copy of The Enterprise today (May 1st) where I noticed a letter of mine in print. Oh yes! I received a letter from Aunt Jessie's sister in London, Mrs. McLachlan, inviting me to pay them a visit at my earliest opportunity and which I'll certainly do. I was surely glad to receive so many nice letters from you all, had one from yourselves, Gwen, Ruth, B. Hicks and Archie.

Here I am in the hospital (May 7th) ... arrived yesterday ... but have to get rid of a cold before the operation ... possibly on Wednesday. This is a Canadian hospital with Canadian sisters, doctors, etc. They all seem very friendly but I guess that is all in their line of duty. I'm in a little 4x4 room all by my lonesome on account of my cold. There's a bunch of other fellows out in the main part of the ward and they seem to have a lot of fun together ... sure is quiet in here though. The sisters come in for a visit occasionally which helps a lot. I can't help but think of the time Phyll and I had the flu, Mom, remember? ... how you used to go into her room to visit and into mine to sleep, ha!

One of the sisters has just arrived back from Africa and Italy and she told me of some of her experiences down there ... all were most interesting. She came from Brantford, Ont. I certainly have swell meals here and all one would care to eat ... however, I do dread the thoughts of having to stay in bed for another 21 days but I'll have to grin and bear it ... then there will be six weeks convalescing ... Oh me!

My chum is getting married here next Friday ... did I tell you that he wanted me for best man ... can you imagine that. He and his wife are coming to see me some day when he is on his honeymoon ... nice of them isn't it?

How are you all doing, back there? S'pose pop has finished seeding and nothing to do now, Ha! ha!

I was just thinking that it was a year ago today (May 10) since I arrived home. Am I right? I wonder what things will be like this time next year, eh, Mom? Don't know of any further news to tell

you ... you understand why of course. Nursing sister's here. Well, don't know much about them yet, but there's one that appears to like one of your cluckin' hens, Mom, pretty flighty.

I'm short on these forms now but am saving one to write as soon as possible after the operation and let you know how I'm doin' etc. Gosh will sure be glad to get some mail though. Hope to hear from you soon, Bye ...

Mr. and Mrs. Thos. Moore and son, Gerald, of Moose Jaw, were visitors at the former's home during the weekend.

## Many Attend Eastern Star Grand Chapter

Grand Chapter of the Eastern Star, Regina was well attended by official delegates and visitors from Rouleau chapter. Those attending were Mrs. Strayer, Worthy Matron and official delegate; Past Matrons, Mesdames Gillan, Charles, Carter, Gladys Rogers, Madeleine Argue, Grace Argue, Norma Hannah, Muriel McKean. Other guests were Mrs. Shiela Lonergan, Mrs. Evelyn Argue and J. Rogers. The meeting was held in the ballroom of Hotel Saskatchewan. Mrs. Gladys Rogers was Warden's Page. She was presented with a corsage of roses during the proceedings of the last evening as well as an appropriate gift from the Worthy Grand Matron, Mrs. Caroline Smith.

### NOTICE

### RURAL MUNICIPALITY OF ELMSTHORPE NO. 100

### ASSESSMENT ROLL, 1944

Notice is hereby given that the assessment roll of the Rural Municipality of Elmsthorpe No. 100 for the year 1944 has been prepared and is now open to inspection at the office of the secretary of the municipality from ten o'clock in the forenoon until four o'clock in the afternoon on every juridical day except Saturday, and on that day from ten o'clock in the forenoon until noon.

Any ratepayer who desires to object to the assessment of himself or of any other person must within twenty days after the date of this notice lodge his complaint in writing with the secretary of the municipality.

Dated this 25th day of May, A.D. 1944.

S. W. JOHNSON,  
Assessor.

# Honor Roll

Following is a list of Rouleau men who have enlisted in His Majesty's Canadian Forces:

### "THEY DIED THAT WE MIGHT LIVE"
