

## Canadian Certified Seed Potatoes Should be ordered AT ONCE

PLACE YOUR ORDER NOW, while supplies are still available. Seed potatoes are being withheld from export to meet the requirements of Canadian growers; but the demands from outside Canada are very strong and supplies not needed for planting in Canada should be released for export in March before the season in the U.S.A. is too far advanced for planting.

ORDER "CERTIFIED" for Table Stock Production. Larger crops are needed in 1944. Obtain a heavier yield from each acre by planting Canadian Certified Seed Potatoes.

ORDER "FOUNDATION" and "FOUNDATION A" for Certified Seed Production. All fields entered for certification in 1944 must be planted with either "Foundation" or "Foundation A" seed potatoes.

## A FIELD for the FUTURE

Less than a quarter century ago, the Saskatchewan Wheat Pool and Saskatchewan Pool Elevators were just ideas in somebody's mind.

Somebody envisioned the potentialities of farm organization, and realized what farmers could do collectively if they decided to work together for the common good. Today the Saskatchewan Wheat Pool and Saskatchewan Pool Elevators Limited are influential and thriving institutions. But the story does not end there. There are yet many fields of activity directly connected with agriculture to which organized farmers can turn their attention.

By developing the agricultural industry in Saskatchewan, farmers can benefit themselves and can make a valuable contribution to the economic development of Western Canada at the same time.

The accomplishments of the Saskatchewan Wheat Pool to date have been made possible by the loyal support of the more than 100,000 farmers who are members of "The Pool." Their continued loyal support and active interest in their organization can make possible greater developments for the future.

D. McIntosh (skip) Ross Ryalls, Howard Bowes and Merv. Wright, composed a rink to participate in Regina bonspiel which opened on Monday. From surrounding points such as Howard, Froude, Arcola, Carleton Place, etc., are also rinks which help to swell one of the largest entries in that city's bonspiel history. Reports of games and draws announced on the radio—especially when the players are locally known—are closely followed by local listeners.

Dr. Ronald Tully, a recent honor graduate at Toronto University in dentistry, spent a day visiting relatives at Stoughton on his way home to Chemainus, B.C.

## Can We Win in 1944?

The answer to that question depends on YOU. Yes, on YOU. We're counting on Victory, but just how soon it comes depends on the manpower behind the effort. Churchill, Roosevelt, Stalin, Chiang Kai-shek are planning for 1944. Their plans demand, as they must, the utmost in men and materials. It's up to us to supply them. Right now the Canadians are fighting with the Fifth Army in Italy... defending Saskatchewan homes by fighting in Italy. It's a global war, and demands an all-out effort on our part. The Canadian Army (Active) needs recruits for general enlistment, for the Veterans' Guard and for the C.W.A.C. How about it?

## Women in the War

This is a woman's war, too! From Stalingrad to Chungking, from Pearl Harbour to Paris, women have suffered the horrors of aggression. In the territories of the United Nations, women are now actively participating in the war to destroy these aggressors. By joining the Canadian Women's Army Corps—by releasing men for combat duty—Canadian Women can best do their part in helping to win this war. The peace we seek is in the future—the time to act is NOW!

WE CAN win—if we all do OUR SHARE!  
**The ARMY Wants YOU, Now!**

COMPLETE information in enlistment in ALL BRANCHES of the CANADIAN ARMY (ACTIVE) will be given you at any Army Recruiting Office, from the Civilian Recruiting Adviser in your district, or from any Selective Service Office.

## A Little Poetry

Some people can depict in poetry or verse the beauties of nature, the spirit or write on whatever their minds dwell and after they have devoted so much time contemplating and putting their thoughts into words and onto paper, will lay it aside as if it is useless. That is where a big mistake occurs. It should be placed before humanity. Each will use his own sense to sift the chaff from the wheat.

In this and a few subsequent issues we shall publish poems by Miss Sarah Olmstead, formerly of Stoughton. She completed her Grade XI and XII in the High School here, had one year's training at the Kiercrest Bible Institute and two years at the Prairie Bible School, Three Hills, Alberta, graduating last spring. Since then she has been working under the Canadian Sunday School Mission in Northern Alberta. Her work includes Vacation Bible Schools as well as regular preaching appointments. She is a missionary candidate to India.

## LITTLE LAMBS

By SARAH OLMSTEAD

Christians, come and join the Shepherd.  
As he searches for His sheep.  
There's a place for you to labor,  
There's a watch for you to keep.

See the world's in darkest midnight,  
Men's hearts failing them for fear,  
Go and tell them to look upward  
For redemption draweth near.

Lo, the days are hast'ning onward,  
Soon the darkness will be past,  
Hoon upon the earth's horizon  
Heaven's morn shall dawn at last.

But, oh, where are those poor wanderers,  
Who upon the mountains stray?  
And upon whom in the judgement  
Will the charge of blood be laid?

Bring the lambs onto the Master,  
Then, when all your work is o'er,  
You can enter Heaven rejoicing,  
There to praise Him evermore.

## Seasonal Farm Plan for Insect Control

There must, we fear, always be a large measure of guess work in farm planning until we can confidently forecast weather and markets. However, we have encountered a scheme for planning tillage operations so as to discourage insect pests, and we are reprinting it in our "Seedtime and Harvest" leaflet. Copies may be obtained from Line Elevator Company grain buyers, or from the Agricultural Department, The North-West Line Elevators Association, Winnipeg.

Entomologists in Western Canada have not confined themselves to laboratory study, but have worked closely with the farmers themselves in finding methods for controlling field crop insects.

The leaflet to which we refer is a copy of a mimeographed publication of the Division of Entomology, Dominion Department of Agriculture, prepared and issued by the Saskatchewan Laboratory. It is concerned with the control of grasshoppers, wireworms, cutworms and wheat stem sawfly. Emphasis is placed on the methods of tillage and timing the various operations so as to discourage the multiplication and spread of insects.

Enormous losses are suffered as a result of insect attack. In some cases, losses are attributed to other causes. For example, if stands of grain are thinned by cutworms or wireworms, weed growth is encouraged. Insect control is an important factor in fighting weeds.

Ask the local line elevator grain buyer for the leaflet, and for more detailed information, apply to the Dominion Entomological Laboratory, Lethbridge, Saskatoon or Brandon.

## HEWARD

G. MacElroy, O. Dempsey, J. MacElroy and P. Stuart are curling at Regina bonspiel this week.

Albert Kells is at the Regina Capital curling with a Fillmore rink.

Mrs. K. Hutehinson is spending a few days in Regina.

Pte. W. Harper returned to duty Tuesday morning, after spending five days enlistment leave at the home of his parents.

Mrs. L. W. Leak returned home to Regina last Friday night, after spending three weeks in Heward.

Mrs. C. Norshale left Tuesday morning for the East, where she will visit her brother.

LAC and Mrs. Wm. Sutherland arrived in Heward last Thursday morning from Yorkton, where Bill is stationed. The former returned Friday morning, while Mrs. Sutherland spent the week with relatives at Creelman. She returned to Heward Tuesday morning to continue teaching at Rock Lake.

Mrs. H. E. Bill arrived home Monday afternoon, feeling slightly improved.

## Gospel Services, Heward

Two special Gospel Services will be held in the Masonic Hall at Heward on Saturday and Sunday, Feb. 12th and 13th at 8 P.M.

Rev. Wm. Pospisil, Overseer of the Church of God in Western Canada, will be in charge. All are welcome.

## Order Certified Seed Potatoes Now

Certified seed potatoes are being withheld from export to meet requirements of Canadian growers, but, the Plant Protection Division, Dominion Department of Agriculture points out, demands for these potatoes from other countries are very strong. Supplies not needed for planting in Canada should be released for export in March before the season in the U.S.A. is too far advanced for planting. This means that orders for certified seed potatoes should be placed without delay while supplies are still available.

The planting of certified seed potatoes for table stock will give a heavier yield from each acre planted to such seed. Seed potato growers are reminded that fields entered for certification in 1944 must be planted with either "Foundation" or "Foundation A" seed.

The local District Inspector of Seed Potato Certification, Plant Protection Division, Dominion Department of Agriculture, has a list of growers having "Certified" "Foundation" or "Foundation A" seed potatoes for sale.

Thanks!

A New Year commences, and to our customers throughout Canada go our sincere thanks and appreciation for the co-operation shown during 1943.

Inevitable changes have gradually been made in our Mail Order Catalogue. As our country's war effort has been redoubled, many items which were once staple lines are no longer available—more confining restrictions have been placed on goods available for civilian consumption—delivery dates in some cases have been unavoidably held up.

It is your understanding of these conditions which has done much to lighten the difficult job of serving Canadian Farm homes in wartime.

## BACON FOR BRITAIN 1944

Canada's Guarantee  
450 MILLION POUNDS  
Canada will try to deliver  
600 MILLION POUNDS

to help Britain maintain the present weekly ration of 4 oz. per person.

To meet this need every pig possible will be needed and more sows should be bred now.

In hog production the largest item of expense is feed cost.

Practical trials on a wide scale show that under farm conditions and with good management a pig can be raised to 200 lbs. (150 lb. carcass) on an equivalent of 1000 lbs. of barley or wheat. This includes the sow's feed.

After making a liberal allowance for other costs, such as interest, depreciation and labour, the net returns on grain fed to hogs under good management, should not be less than the amount shown below.

B-1 Hog Price at Farm	Barley per Bushel	Feed Wheat per 100 lbs.	Feed Wheat per bushel	Feed Wheat per 100 lbs.
15c.	74c.	\$1.54	\$0.91	\$1.51
16c.	81c.	\$1.69	\$1.00	\$1.66
17c.	88c.	\$1.83	\$1.09	\$1.81

Quality premium or bonus on hogs not included in above.
